

The following are more Service Award highlights for awards that will be presented at our Table Tennis Club Winter Banquet.

The Person of the Year Award will be presented to Sam Tam. Our Table Tennis room is a "State-of-the-Art" table tennis facility, which includes specially cushioned floors and optimal lighting, and also includes two tables outfitted with mechanical robots for practice. Sam Tam donates his time to maintaining and repairing these robots so that they stay in good working order. The machines tend to break down frequently, and without someone to attend to their care, we would not have these very popular robots available for everyone to use. We are very grateful to Sam for all the hours he has dedicated to keeping these machines working for everyone. By the way, if you would like to help him in his endeavors, he would love to have assistance with this project.

The Lifetime Service Award will be presented to Jerry Ludlum. Jerry has been secretary for the Table Tennis Club for many years, and has been instrumental in organizing all of our club's information and communication. Among other duties, Jerry publishes the weekly TT Club newsletter, coordinates the publishing of the Directory annually, and assists with the maintenance of our club's database. Communication is the key to success for any organization, and we are immensely grateful to Jerry for his work establishing strong lines of communication within our club and between members. We would not be where we are today without him.
