

Managing Recording Conflicts

If you schedule more than two recordings for the same time, you will see a **Scheduling Conflict** screen that allows you to choose between a previously set recording and the new recording that is conflicting. Individual recordings always take priority over series recordings when there are scheduling conflicts. In case of a scheduling conflict between two series programs, additional icons will appear at the bottom of the **Scheduling Conflict** screen to help you determine which program to record.

- Return to the previous screen.

- Record highlighted series as shown above.

- Show conflicts when the new series is a high priority.

- Show conflicts when the new series is a low priority.

- Don't record this series.

ω To give your new recording the highest scheduling priority and to capture the most number of episodes for your new recording, select **HIGH**. The screen will show you how many episodes of the new series will be recorded and which episodes of the old series will not be recorded because of the conflict.

ω To move the new series back to the bottom of the scheduling priority list, select **LOW** and the screen will refresh and give you revised results.

ω Select the Record Icon  to confirm your new settings.

You may also modify the priority assigned to a series using the Series Priority List.

Modify the Series Priority List

To help you manage which series get recorded when there are scheduling conflicts, your DVR automatically creates a Series Priority List. The first series you set to record has the highest priority and is the program recorded in case of a conflict. If there are no conflicts, each additional series you set to record is added to the bottom of the list. You can easily change the recording priority of the programs so that the programs of your choice are recorded in case of a conflict.

ω Select **DVR** from the **Quick Menu**.

ω Choose Series Recordings.

ω Highlight a program and use the **Page +/-** buttons on your remote to increase/decrease its priority.

Note: If you want to record two series recordings instead of an individual recording that airs at the same time, you must delete the individual recording from the Scheduled Recordings.
